TURN YOUR HOME INTO A TAX SHELTER

Thank you for your continued interest in the Biweekly Mortgage Association.

Did you know that by enrolling in the biweekly equity account and using an equity line of credit you could save approximately $2,000 in federal income taxes? (This tax savings could be higher or lower depending on your tax bracket and debt payments).

There is a way to deduct consumer debt, i.e., interest on automobile and credit card payments.

To customize the biweekly to your needs and find out ***how much tax money you could keep in your pocket by deducting non-mortgage interest at tax time*** , call **1-800-248-8840** today!

Sincerely,

William Thomas – BWMA Founder
