

***FUTURE PREDICTION: Escrow Accounts exceed the amount of principal and interest!***

**Thank you for your continued interest in the Biweekly Mortgage Association.**

I work with Homeowners on a daily basis and have been doing this for over 30 years, so I can safely predict an alarming fact. I think many Homeowners with loans today will soon see the Monthly Escrow Amount exceed the amount of the Principal and Interest part of their payment. This is a definite trend and I have even seen a couple of Monthly payments where this is true now.

So, how do we prepare for this? The best way I know of is to enroll in the biweekly payment plan and build equity as fast as possible. Also, make your goal to eliminate the Principal and Interest portion so you are only paying your taxes and insurance.

I cannot wait to show you how much money you will have available from the early payoff time with a biweekly to the end of your normal 30 year term. I guarantee you will be excited and relieved knowing that dollar figure.
