

I CAN DO IT MYSELF

Would you be happy with saving in the next five years as much as you saved in the last five years?

Well, take a look at your past, your future will be just like your past, except more years of it, unless you make a change in how you're making your mortgage payments.

Still think you can make extra mortgage payments yourself? Take this acid test . . . How long have you had a mortgage? How many times have you made an extra mortgage payment? We rest our case!

If you keep on doing what you have always been doing, you will keep on getting what you have always been getting. Isn't that the definition of insanity? To keep doing the same thing and expect a different result?

Your early retirement and your children's education are too important to leave up to the chance that maybe you will or maybe you won't make extra payments.

Don't be one of the 80% of Americans at age 62 that still has a mortgage payment.

BWMA— the comfortable, convenient, consistent way of making extra payments to principal.

To customize the biweekly to your needs and find out *how easy it is to make the best choice for your future*, call **1-800-248-8840** today!

Sincerely, *William Thomas* – BWMA Founder
