

HAVE YOU EVER MADE A \$50,000 PHONE CALL?

Thank you for your continued interest in the Biweekly Mortgage Association.

When it comes to important phone calls, the one to the toll-free number below may be the most valuable one you will ever make. By now you have a general idea on what a biweekly will do, but we cannot wait to show you what a biweekly plan will do for YOU.

It is not all about dollars and cents. If we surveyed the homeowners across America we would find they have 3 major goals and they are; to live in their dream home, send their kids to college and retire early. What is important is how a biweekly plan will help you reach your goals and benefit you and your family.

To customize the biweekly to your needs and find out ***how a biweekly plan will benefit you and/or your family***, call **1-800-248-8840** today!

Sincerely,

William Thomas - BWMA Founder
