

## Time & Money

The Biweekly Mortgage Association (BWMA) thanks you for looking into the opportunity to accelerate your mortgage, bringing you closer to your dreams and goals.

As your mortgage is tied inseparably to both time and money, the Biweekly Mortgage Association quantifies both of these precious commodities.

Paying your mortgage biweekly ignores traditional thinking, "That we can make more money yet we cannot make more time."

Thus it puts you in the enviable position of defying the paradox of time: "No one has enough, yet everyone has all there is."

Your choice to defy this paradox and create 6 or 7 additional years of payment freedom creates the benefits of your loan acceleration.

They are future wealth generation, early retirement, or obliterating other debt. This will enable you to achieve the American Dream; retire debt free, doing what you want, when you want, and with whom you want.

The Biweekly Mortgage Association would like to show you how it can fast forward your savings while rewinding the clock for you.
